

Penrith Environment Agency Case Study

UK's Original Solar System Manufacturer Based in Scotland

Project Overview

AES Solar were approached by the Environment Agency to provide a hot water system for their new Penrith offices that would minimise environmental impact while blending into the overall design.

The solar thermal system, which is overlooked from the Penrith Junction on the M6, not only reduces running costs and carbon emissions but also demonstrates the agencies commitment to sustainability.

Technical Overview

Client	Environment Agency
Array Size	24m ²
Performance	16,188 kWh/year
CO ₂ Savings	3,075 - 6,960 kg CO ₂ /year

AES offer solar thermal systems to suit any hot water application including single residences, multiple housing projects, swimming pools, apartment and office blocks, hospitals and industrial high volume water users.
