

We're Hiring: Solar Energy Design Estimator

About Our Business

Established in 1979, AES Solar were the first manufacturers of solar thermal collectors in Western Europe. Since then, we have dedicated ourselves to being true solar experts, focussing on nothing other than improving the ways in which we can harness the power of the sun as a sustainable energy source for our customers.

Now celebrating our 44th year, we take great pride in everything we have accomplished for our customers and our community so far, and we will continue to strive to lead the solar industry while exceeding our Corporate Social Responsibility.

Due to continued growth a new position has been created within the **technical sales team**. It's an exciting time to join our industry!

Role & Responsibilities

Main responsibilities include:

- Designing and quoting solar PV, battery storage and solar thermal systems.
- Working alongside multiple departments within the company.

Please note, this is an internal role with no direct customer facing responsibilities.

Next Steps

Send your CV and cover letter to info@aessolar.co.uk. We will be in touch after the application closing date to notify you of the outcome. If you have any specific interview requirements or would like to have an informal chat about this vacancy please email as above or you can call the office on **01309 676 911**.
