

Labourer – Solar PV

Location: Forres

Job Types: Full-time, Permanent

Schedule: Monday-Friday + Overtime

Work Location: In-person

About our business

Established in 1979, AES Solar was the first manufacturer of solar thermal collectors in Western Europe. Since then, we have dedicated ourselves to being true solar experts, focusing on nothing other than improving the ways in which we can harness the power of the sun as a sustainable energy source for our customers.

Now celebrating our 44th year, we take great pride in everything we have accomplished for our customers and our community so far, and we will continue to strive to lead the solar industry while exceeding our Corporate Social Responsibility.

Job Description

Due to continued growth, we are looking to add an additional labourer into our team. You will be working as part of a solar install team assisting the installers with new solar systems on commercial, residential and new build properties.

We are offering an exciting entry-level position with a clear pathway for growth within our company. Starting as a labourer, employees have the opportunity to progress through our structured solar installer banding levels, developing new skills and unlocking their full potential along the way. For applicants with prior experience in roofing or the solar industry, there is potential to join at a higher banding, allowing you to hit the ground running and build on your existing expertise.

Main tasks & Responsibilities

- General labouring including job preparation, loading and unloading and maintaining site tidiness.
- Performing tasks as directed by the lead installer to assist with the installation of Solar PV systems and battery storage, including in roof, on roof and ground mount systems.
- Working on a large range of projects ranging from small residential to large scale commercial projects.
- Ensuring compliance with Health & Safety and laws and regulations.
- Occasionally traveling away for installations in remote regions or large commercial projects.

Skills and Experience

Required

- Knowledge of the Solar PV industry or willingness to learn
- Excellent communication skills
- Ability to work to deadlines
- Effective team member who can work well with others.

Desirable

- Valid CSCS Card
- Full drivers licence
- Previous building site experience
- Experience of working in the renewables sector

Benefits

- Company events
- Company pension
- Cycle to work scheme
- Employee discount
- Life insurance
- On-site parking
- Private medical insurance

Next Steps

Send your CV and cover letter to info@aessolar.co.uk. We will be in touch to notify you of the outcome. If you have any specific interview requirements or would like to have an informal chat about this vacancy please email as above or you can call the office on 01309 676 911.
