Job Title: Electrician

Job type: Permanent, Full-time

Location: Forres, Moray IV36

In person OR Hybrid: In person

Salary range: £40,000 - £50,000 per annum

About Us

AES Solar is a leader in renewable energy solutions. With five decades of experience, we've been at the forefront of renewable energy innovation. We deliver high quality, reliable renewable solutions that stand the test of time. If you work with aes renewables, you're choosing a greener, brighter future with a company that's here to stay. We're growing quickly, creating opportunities for driven employees to progress their careers.

Job Description

Due to continued growth, we are looking to add an additional electrician into our team. You will be working alongside a solar install team installing new solar systems on commercial, residential and new build properties and carrying out maintenance and diagnostics on existing systems.

Main Tasks & Responsibilities

- Installation and maintenance of Solar PV systems and battery storage, including electrical wiring, mounting of inverters and panels and installation of switches.
- Working on a large range of projects ranging from small residential to large scale commercial projects.
- Representing the company at site visits, attending surveys, collecting relevant electrical information.
- Working as part of an installation team, ensuring that installations go according to plan and customer needs are met.
- Providing handovers and well-informed system explanations to customers.
- Ensure all electrical work is safe, certified and complies with relevant regulations
- Managing paperwork on site including quality checks
- Occasionally traveling away for installations in remote regions or large commercial projects.
- Working closely with in-house engineering, operations, and sales depts. to provide electrical expertise and feedback.

Skills & Experience:

Required:

- 18th Edition Wiring Regulation certification
- City & Guilds Inspection & Testing 2391 Course (C&G 2391-52)
- Proven experience of conducting EICR s
- Valid ECS Card

- Good knowledge of the Solar PV industry or willingness to learn
- Full drivers licence
- Excellent communication skills
- Ability to work to deadlines
- Effective team member who can work well with others and also alone.

Desirable:

- EV charge point installations
- Experience of working in the renewables sector

Benefits:

- Company events
- Company pension
- Cycle to work scheme
- Employee discount
- Free, on-site parking
- Health & Wellbeing programme
- Life insurance
- Private dental insurance
- Private medical insurance
